SUMMARY

Full Stack Developer with hands-on experience building responsive, user-centric web applications using Python, Django, JavaScript, HTML, CSS, C++, and SQL (MySQL). Skilled in developing scalable backend systems, designing intuitive user interfaces, and managing relational databases. Proficient in version control with Git and GitHub, with experience in data analysis and visualization using NumPy, Pandas, and Matplotlib. Committed to writing clean, maintainable code and delivering reliable software solutions. Known for strong problem-solving abilities, analytical thinking, and effective collaboration in team environments.

EDUCATION

Virtual University of Pakistan <i>BS Data Science</i>	2025 – Continue <i>Lahore, Pakistan</i>
Govt. Islamia Graduate College, Civil Lines, Lahore <i>Intermediate</i>	2022 – 2024 <i>Lahore, Pakistan</i>
Laurelbank Public School <i>Matriculation</i>	2020 – 2022 <i>Lahore, Pakistan</i>

PROJECTS

Hanni's Espresso — Coffee Shop Web Application live ↗ github ↗	2026
- Built a full-stack Order-Ahead web application using Python and Django, allowing users to browse interactive coffee menus and place direct orders. - Designed a clean, responsive interface using HTML5, CSS3, and JavaScript featuring dynamic item pricing and bill calculation logic. - Engineered custom Django ORM models and database management deployed live on PythonAnywhere for real-time order processing.	
EduTrack — Student Management System live ↗ github ↗	2026
- Developed an administrative portal using Python and Django for course management, academic tracking, and real-time student record updates. - Implemented Django Authentication and Role-Based Access Control (RBAC) to secure administrative routes and protect academic data. - Designed interactive dashboard views styled with Bootstrap and backed by dynamic relational database CRUD operations.	

SKILLS

Programming Languages:	Python, C++, SQL, JavaScript
Frontend Development:	HTML, CSS, JavaScript, Bootstrap
Backend Development:	Python, Django, REST APIs, File Handling
Data Science & Libraries:	Pandas, NumPy, Matplotlib
Databases:	MySQL, SQLite
Developer Tools & Platforms:	Git/GitHub, Postman, PythonAnywhere, Render

LANGUAGES

English:	Fluent
Urdu:	Native
